

Information regarding the NuVet vitamins: I have attached a brochure with the phone number and code for setting up autoship through NuVet. When you schedule "autoship" you can receive 15% off your order. Please be sure to set this up as soon as possible as the puppy is already on NuVet Plus and NuJoint DS. The reason I use the NuVet vitamins is the cold processing used by NuVet Labs allows the ingredients to retain their rich nutrients and be absorbed more easily into the digestive tract, which means NuVet products provide more nutritional value. These vitamins are human grade. Please let me know if you have any questions or concerns. Thanks.
